Geo. Barnett

NEW RICHMOND  
BANK TO OPEN  
FOR BUSINESS

Officials in Commercial  
And Savings Are Well  
Known to Public

The Richmond Commercial and Savings bank, Richmond's newest banking institution, will open its doors for business tomorrow morning, according to an announcement made yesterday by George E. Barnett, president and manager of the bank.

**BARNETT EXPERIENCED**  
Barnett has had twenty years of banking experience in San Francisco and Contra Costa county. He was with the Wells Fargo Bank and Union Trust company; later going to the Crocker First National; then with the First National bank of Martinez; later with the First National bank at Concord and manager of the American Trust company Concord branch before coming here. With his banking experience he is fitted to give the bank successful leadership.

**OFFICERS NAMED**  
Officers of the bank besides Barnett are Dr. E. R. Guinan, prominent Richmond physician, who is vice-president; John L. Rihn, cashier and the following board of directors: O. R. Ludwig, prominent market owner, chairman; Antonio Nelson, lumberman and mill owner; James F. Hoey, deputy district attorney of Contra Costa county.

**RICH OLD RESIDENT**  
Rihn has resided in Richmond for the past twenty years. He was first in the store-keepers department of the Santa Fe Railroad and later entered real estate. He was deputy county treasurer until five years ago when he became district manager of the East Bay Water company, resigning from that position to accept the present one.

Miss N. Millner will be accountant of the new bank. She was connected with a bank in La Junta, Colorado before coming to Richmond nine years ago. She has been assistant cashier of the Mechanics bank of Richmond.

**BUILDING PLANNED**  
Plans are now being drawn for the new bank building at Twelfth street and Macdonald avenue. The building will be of steel and concrete, one story in height, 50 by 100 feet. It will contain every banking convenience and in addition will have a safe deposit department.

Darwin E. Smith, formerly connected with the Bank of Italy in San Francisco has come to Richmond to assist in the business expansion of the new bank.

**IN TEMPORARY QUARTERS**  
Until the completion of the new building the bank will occupy temporary quarters at 1217 Macdonald avenue, beginning tomorrow. Work will be started on the new structure as soon as the present frame building occupying the site is removed and it is planned to have new quarters ready for occupancy by the first of the year.

L. A. Man Held  
As Bootlegger  
In Richmond

Richmond police officers last night arrested Neil Hendricksen, giving him address as Los Angeles, and booked him at the city jail on a charge of violating the Wright Act. He was found asleep in his car in which were two gallon jugs of liquor, authorities reported. Hendricksen will appear before Police Judge C. A. Odell Monday for hearing.

Arrest Dairyman  
On Girl Charge

Joe Iomos, 43, a dairyman residing at El Cerrito, was arrested in Irvington yesterday afternoon on a warrant charging a statutory offense against his 16-year old niece.

In her complaint to the authorities the girl charges that the offense complained of have continued over a considerable period. Lemos vehemently denies the accusations and insists that he can establish his innocence.

J. L. Rihn

REALTORS GO  
TO CONCLAVE

Richmond realtors will leave today for Santa Monica to attend the state convention which begins there tomorrow. J. H. Plate, Mrs. W. H. Sanford, Mrs. Ruby Bryant and Mrs. Hansen will represent Richmond.

Problems of realty legislation, taxation and enforcement of the State Real Estate Act will be discussed at business sessions of the conclave.

Governor C. C. Young will be an honored guest and will deliver one of the chief addresses. A. R. Heron, head of the State Department of Finance, will speak on "Coordinating the Powers of State Government."

"Taxation of Real Estate" will be discussed by Robert A. Swink, chairman of the California Real Estate Association committee on taxation.

HILL RAILROAD  
ENTRY FORSEEN

That the powerful Hill railroad interests of the Pacific Northwest are still looking longingly toward the San Francisco bay area and that Contra Costa county may soon be traversed and served by a fourth trans-continental line is foreseen in the application of the Northern California Railway Company filed with the Interstate Commerce Commission for permission to build 31 miles of new road between Westwood in Lassen county and Sacramento.

Under the conditions of the application, the company proposes to issue \$400,000 in new bonds to finance the project and in addition, to buy the existing line of the Red River Lumber company. The line owned by the Red River company is a logging railroad from Westwood to Lake Almanor.

Including in the 31 miles of new road it is said is a line from the end of the present Red River Lumber company track to the Western Pacific main line in the Feather river canyon, through Indian valley.

While the Western Pacific, which is controlled by Hill interests is not officially involved in the application, plans of the new road coincide with activities of Hill interests to secure a direct route from the Northwest into the bay district. Purchase of the Sacramento Short Line, giving the Western Pacific a shorter route between Oakland and Sacramento via Contra Costa points and announcement of plans of the Great Northern railway, also controlled by Hill, to build south from Ben. Oregon, through Klamath Falls to Susanville, Lassen county, have already been made.

Davis Company Will  
Build 2 Cottages

The N. E. Davis company, realtors of 2436 Macdonald avenue, will start construction tomorrow on two one-story cottages on Forty-second street between Nevins and Barrett avenues. Both will be of frame and stucco construction. One will contain six rooms and cost \$14,000 and the other will be of five rooms and cost \$9,900.

BALKAN WAR CLOUDS GATHER  
GOLDEN BEARS DOWN SAINTS  
BY SCORE OF THIRTEEN TO 0

St. Mary Squad Fails To  
Break California's Line;  
Stanford Defeats Nevada

BERKELEY, Oct. 8.—Concentrating her attack on the ends and on well placed forward passes, California defeated St. Mary's in the California Memorial Stadium here today by a score of 13 to 0.

Ralph Dougery, fullback, scored all of the Bears' touchdowns. The first in the first quarter and the other in the second. Both of his scores were on line plunges from within the 5 yard line.

Both teams used an open game but the Saints did not have the backfield punch to put over a score. They were well down in California territory during the third period but each time they threatened California held.

Irving Phillips and Jim Dougery, ends, and Captain Coltrin, tackle, outplayed their St. Mary's opponents and did not let a Saint safety man gain more than 20 yards on running back punts. Between them they held the Saints completely.

Nils Price, California coach, started a backfield composed of Evans, quarter, R. Dougery, full, and Newman and Lomb halves. With one exception this will probably be the first string backfield for most of the season.

**STANFORD WINS 20-2**  
Stanford clearly outclassed Nevada at Palo Alto today as the Wolf Pack were only able to score two points during the last few minutes of play on a safety while Stanford ran up 20 points on three touchdowns.

**OREGON-IDAHO EQUAL**  
Two teams of unknown quality met at Eugene, Oregon today and failed to settle any arguments over superiority when the University of Oregon failed to make a necessary two yard gain against the University of Idaho in the last minute of play. The final score was 0-0.

L. A. Police  
Hold Alleged  
Auto Thieves

Los Angeles police are holding for the Richmond police Mrs. Phel Leano and Simon Ramos, both of San Francisco, charged with grand larceny in connection with the theft of an automobile from P. H. Akino, steward of the Richmond Elks club, and Harry Curry, local automobile dealer. Constable and Mrs. Arthur A. Alstrom left last night to bring the two back to Richmond. Mrs. Alstrom will act as matron.

The couple is said to have borrowed the car on July 14, last, to make a 10-day trip. They failed to return the car. The Los Angeles authorities apprehended the couple following receipt of circulars sent out by Alstrom.

Wesley Choir Will  
Present Musical  
Concert Tonight

The vested choir of Wesley Methodist church will present a Sacred Concert at the services tonight at 7:30 o'clock under the direction of Mrs. Myrtle S. Brown. Quartet, duet and solo numbers will be given. The public is invited to this program of sacred music. The program was published in yesterday's Record-Herald.

It was stated in Washington yesterday that troops will supervise the Nicaragua elections of 1928.

PITCHFORD  
STARS FOR  
ST. MARY'S

Carroll Pitchford, son of Mrs. Sarah Pitchford of 538 Nineteenth street, distinguished himself on the St. Mary's team yesterday in the California-St. Mary's game. In nearly every instance when he had the ball, he did not fail to make gains, making the best showing on the team. He played throughout until the middle of the third quarter when he was injured and removed from the field. He later returned and received an ovation. Although this is his first year with St. Mary's, his gameness and playing as left-half has earned him a permanent berth on the string.

Bill Kleevich, also of Richmond, played end on the Freshmen team of St. Mary's, lasting three quarters.

POLICEMEN TO  
HAVE BIG BALL

Richmond's finest, the guardians of law and order and property in the city, are completing plans for the annual ball for the benefit of the relief fund. The event, scheduled to surpass all previous affairs of the department, will be held at East Shore Park on the night of November 23.

Every member of the force from Chief of Police Dan Cox to the patrolmen and traffic officers are preparing for the event.

Preliminary plans for the event were discussed at a meeting and committees to take care of publicity, advertising, decorating, tickets, music, floor and other sections needing attention have been appointed.

With more than a month to prepare for the affair, the police feel that the event should prove a success. This will be the first ball to be given for the relief fund other means having been taken in 1926 to strengthen the treasury. Tickets are already in the hands of the officers and the sale will be launched immediately.

\$1567 Netted In  
Game Licenses

MARTINEZ, Oct. 8.—County Clerk J. H. Wells today forwarded to the State Fish and Game Commission a check for \$1567 covering receipts in Contra Costa county since August 1 on the sale of hunting and angling licenses and deer tags. Hunting licenses netted \$996 and angling licenses \$211. Receipts from sale of deer tags totalled \$360.

The Florentine choir which had its origin in the thirteenth century and which still wears thirteenth century costumes, arrived in the United States last night for an extended tour.

Edward Stornace, a market with the "double cross" by run-running buddies yesterday. The "cross" was deeply etched with a razor blade on his left cheek.

NEW FORD CAR  
SAID TO MAKE  
60 TO GALLON

Mileage Advertised In  
China Preparatory  
To Announcement

WASHINGTON, Oct. 8.—The new Ford car, eagerly awaited by the motor world for the last six months is being advertised in the Orient as capable of running sixty miles per gallon of gasoline. It was learned here today, Cooper offers the following suggestions designed to eliminate fire hazards in the home.

**REVOLUTIONARY MILEAGE**  
This unbelievable mileage, advertised by regular Ford dealers in China would make the new Ford three times as economical on gasoline as any other car in the world. It could only be accomplished by a revolutionary advance in motor mechanics and would place the new Ford in a class by itself.

While this news was being passed the motor world via the Coast, it was further learned that Ford dealers expect models of the new cars will be placed on display throughout the country within the next three weeks.

The Oriental advertisements, the first to be made of the new car, declare the 1927 full-model Ford will be larger, sturdier and lower-slung than any of its predecessors. It will be built in six models the advertiser declared.

"Standard equipment will include self-starter, wire wheels, speedometer, windshield wiper, ammeter, gasoline gauge, oil gauge, dash light, shock absorbers and four wheel brakes," the advertisement continued.

**STANDARD SHIFT**  
The engine will be rated at 34 horsepower (comparable to 21.7 horsepower in the Ford's chief competitor) to drive the car up to 60 miles per hour in thirty seconds.

As announced previously the advertisement said the new Ford would be of "standard gear shift type, with three forward speeds and reverses."

"The new machines will be equipped with tandem fly wheel, dynamo, generator, irreversible steering gear which will not deflect on rough roads, new force feed oiling system, new water pump, heavier axles, heavier and wider frame and transverse type springs. The new model will have a wheel base of 104 inches."

THE  
CORE

Six officers and 63 privates of the American Federal army were killed and many wounded in a battle with 400 religious rebels in Jalisco yesterday.

Two men were killed and 15 injured when the floor of the Kimberley paper mills collapsed in Appleton, Wisconsin, yesterday.

Vienna was last night shaken by an earthquake which drove people in a panic from theatres and cafes. No casualties are reported.

Bandits raided the town of Velles, west of Tampico it was learned last night, and escaped.

Bloodhounds yesterday aided in the capture of three or four prisoners who escaped from Jackson Prison, Michigan, early in the morning.

Prevention Of  
Fire Week To  
Be Observed  
In Richmond

Today marks the beginning of Fire Prevention Week which will be observed throughout the country in an endeavor to reduce the number of deaths and injuries and vast property damage caused by fire. Thousands of persons were killed and injured last year and property valued at more than \$560,000,000 was destroyed. Ordinary precautions should eliminate much of this loss. For the guidance of the public Fire Chief W. P. Cooper offers the following suggestions designed to eliminate fire hazards in the home.

**FLUES VITAL SPOT**  
At this time of the year the matter of heating homes for the winter naturally receives consideration. Before the fires are started it is important that careful attention be given to chimneys and flues for if they are neglected the entire home may be destroyed by fire. In 1925 property valued in excess of twenty one million of dollars was destroyed because of fires which originated in defective chimneys and flues. The larger part of this loss could have been prevented if inspections had been made, soot cleaned out and the necessary repairs made before the heating units were put into operation in the fall.

**EXAMINE OILY RAGS**  
"The use of oil and gasoline can be made safe merely by exercising carefulness in handling them. They cause an annual fire destruction of more than \$10,000,000 in property because of carelessness or ignorant use. Many lives are lost through using kerosene or gasoline fires in stores and furnaces. This is a most dangerous practice. Oily mops and rags often cause fires from spontaneous combustion. They should, therefore, be kept in closed metal containers where air cannot hit them."

"When properly installed and used there is no safer form of light, heat and power than electricity. But due chiefly to carelessness the annual fire loss attributed to electricity is more than \$15,000,000. All wiring and electrical apparatus should be carefully installed by skilled workmen and frequently inspected."

"Disorder and untidiness breed fires. Careful attention should be given by the householder to the removal of all rubbish from cellars, attic and cupboards. Lighted matches and smoking were responsible for \$30,000,000 fire loss."

Richmond Matron  
Answers Call

Mrs. Ellen B. Lewis, 57, of 630 Twelfth street, passed away last night after a brief illness. She was a native of Indiana and a resident of Richmond during the past 15 years and of California for 25 years.

Deceased was a member of the First Baptist church here and services will be held there Tuesday afternoon at 2 o'clock. Interment will be in Sunset View cemetery. She was the wife of A. L. Lewis of this city. The remains have been received by Wilson and Kratzer.

Bert Hassell, pioneer aviator of Rockford, Illinois, announced yesterday that he will hop off from Chicago May 15 next in a non-stop flight to Stockholm, Sweden.

The coal strike in Indiana was settled late yesterday when an agreement was reached by the Union Mine operators and miners at Terre Haute.

SLAV CONFLICT  
WITH BULGARIA  
IN IMMINENCE

Jugo-Slav Frontier Is  
Closed; Bandits In  
Repeated Attacks

The threat of another war is hanging over the Balkans—the "cockpit of Europe."

The Jugo-Slav government, aroused by forays on Jugo-Slav soil by Bulgarian comitadjis, is reported to have closed the Jugo-Slav-Bulgarian frontier, meanwhile making strong demands upon Sofia for guarantees against further attacks.

**BANDITS IN ATTACK**  
Bulgarian (or Macedonian) comitadjis are irregular forces that occupy the wild mountain region of the central Balkans. They profess to be Bulgarian patriots and have long conducted organized attacks against Jugo-Slav outposts. They are accused of the assassination of General Kovacevich at Nistip several days ago. Later they are reported to have attacked two Serbian frontier posts.

The Jugo-Slav minister is reported to be prepared to leave Sofia.

**WAR DEMANDED**  
Jugo-Slav newspapers urge the breaking off of diplomatic relations and a declaration of war unless Bulgaria gives satisfactory guarantees that the irregulars will be curbed and punished those that have already violated Jugo-Slav soil.

War between Jugo-Slav and Bulgaria might embroil Greece and Turkey.

Throngs Attend  
Columbus Day  
Celebration

PITTSBURGH, Oct. 8.—Extensive preparations were completed for the celebration of Columbus day here today. The program opened tonight with a band concert at Fifth and Railroad avenue where a stand has been erected. A coronation ball took place at Sanderman and Israel hall after the concert.

M. Patane, Pittsburgh merchant, is taking the part of Columbus, and accompanied by a crew of fifteenth century sailors will dock at Pittsburgh tomorrow morning. A four mile parade will start at 10 o'clock, comprising floats from all parts of Contra Costa county, and Richmond and surrounding cities will be represented. The parade will be led by Sheriff R. R. Venle who is grand marshal.

Jeanette Walcott will be Queen Isabella and Evelyn Webb, Miss Pittsburg, will also wear the royal purple.

Lieutenant Governor Buron Fitts will visit the scene of the celebration and will be the speaker of the day having been invited by the Pittsburg post of the American Legion.

Athletic contests will also be held, a football game between Live Oak Club of Berkeley and Antioch, to be held tomorrow at 2 o'clock. The new Earl lodge building at Seventh and Cumberland streets will be dedicated at 4 o'clock tomorrow afternoon. The dedication is to be attended by a large delegation from the Point Richmond Aerie of Eagles.

**HILLIERS HOSTS**  
Mr. and Mrs. A. Sheets and Mr. and Mrs. B. Smoket of Vallejo were the guests of Mr. and Mrs. L. D. Hillier of 35 Nichol avenue. The visitors came to attend the past matrons and patrons night of Miramar chapter.

## "BOB" MEUSEL VOICES JOY OF WINNING YANKS

By BOB MEUSEL  
(Outfielder for Yankees)  
(Copyright 1927, By Universal Service)

YANKEE STADIUM, NEW YORK, Oct. 8.—I knew we'd do it. When this series began we all figured that it would be short. After we won the opener and had a test that day of just what kind of a ball club the Pirates really were—well, we figured that, at the worst we'd beat them in five games.

But after we whipped them in the second—and did it so decisively—every one of us had the idea that we had a mighty big edge on them and that we could smash them in four straight.

And we did.

This final one was close and final victory came to us through a bit of luck in that ninth—or call it had baseball by the Pirates.

But whatever breaks we got in that final inning merely offset the luck—or our bad playing—that favored the Pirates in the 7th.

Their first batter reached first on an error; so did their second. And they cashed those two hits of luck into two runs.

1st M. E. Observes  
25th Anniversary

All of the old time friends and acquaintances of the church are cordially invited to participate in the 25th anniversary service Sunday morning, October 9th. The minister, F. H. Prince, will bring an appropriate message for the occasion.

A little history. The following article came out in the Richmond Record, October 1900.

The first religious service held in Richmond or in any of the territory contiguous thereto were conducted by Rev. J. Williams of Vallejo and Rev. T. Leak of Martinez, two Methodist ministers, Monday evening (Oct. 8, 1900) of last week. They were held in the unfinished office of the new ("richett") hotel.

Services were also held on Sunday morning last. An organization was effected with four members, Mr. and Mrs. Solomon, Mrs. Geo. McCall, and Mr. Odell. St. Francis services will be held after from this little band it is expected that a church will grow. A house of worship is in prospect. The Nicholl Co. has offered advantageous terms on site and aid will be asked from the Church Extension fund. The Record bids them Godspeed.

## HARRIS LAUDS YANKS PLAYING IN BIG GAMES

By JOE HARRIS  
(First Baseman of Pittsburgh Pirates)

YANKEE STADIUM, NEW YORK, Oct. 8.—This is a blue day for me.

It's blue for all of us Pirates, but before I start talking about the gloss of the game and the World Series I want to say right here that the Yankees are a great ball club and, deservedly, win.

Maybe some of the breaks went against our club, but in looking back over the whole series I have to hand it to Miller Huggins and his boys for putting up four good battles against us.

I don't believe they defeated us while we were at our best, that wasn't the Yankees' fault. We went into a hitting slump and at no time did we look like the club that defeated the Cardinals, Giants, and Cubs in as hard a race as any team ever won.

I'll not get the winning player's end of the purse, but honestly I'm telling the truth that doesn't worry me nearly so much as the fact that my buddy, my war-time comrade, John Matus was the loser along with the rest of us.

## Damon Details Last Game Of Yanks' World Series Winning

By DAMON RUNYON  
(By Universal Service)

YANKEE STADIUM, NEW YORK, Oct. 8.—In the midst of chills and fevers of baseball drama up at the Yankee Stadium this afternoon, there suddenly came a sort of "Pop!" and the world's series of 1927 ended in what you might call an anti-climax, with the New York Yankees the victors in four straight games over the Pittsburgh Pirates.

It was like getting all lathered up over a tense, nerve-wrecking dramatic scene, and then having the low comedian step out and whack somebody over the head with a bludgeon, for with the series a tie at three all in the last half of the ninth, the bases loaded with Yanks, and two out, John Matus, of Pittsburgh, tore off a wild pitch that scored Red Cembula from third giving the Yanks the fourth and last game by a score of 4 to 3.

It is the second time in modern baseball history that a club has won four consecutive games in a world's series. The Boston Braves under George Stallings, did it in 1914 against the Philadelphia Athletics. The Giants won four games from the Yanks in a series of 1921, but a fifth was tied. Its exploit against the National League champions undoubtedly establishes Miller Huggins' 1927 club as one of the greatest of all time.

## RICHMOND AND NEPTUNE MEET IN SWIM TODAY

Coach Ralph Kendrick of the Richmond swimming team, says that Richmond has a fine chance to take the meet away from Neptune this afternoon at the Neptune pool. The men's team was beaten by Neptune at the municipal pool, October 6, by a score of 36 to 32. Richmond was ahead in the meet up to the relay, but lost that, and the meet Kendrick hopes to reverse the late defeat with the help of Sundman, an all most sure win in the backstroke, and breast stroke, and perhaps in the plunge for distance. Edwards and Ekburg should help Richmond win the relay this time too. Both men being unable to swim in the relay at the October 6 meet.

Richmond's entries this afternoon are the following: 100 yard backstroke, Sundman and Childs; 50 yard free style, Edwards and Ekburg; diving, Siple and Gihart; 100 yard breast stroke, Sundman and Edwards; 220 yards free style, Hollinger; plunge for distance, Sundman and Hollinger; relay team: Hollinger, Ekburg, Sundman, and Edwards.

## HARMONY COURT MAKES PLANS FOR DANCE

Harmony court, Order of the Amaranth, held a short business meeting last night at Masonic hall. It was announced that the plans for the invitational dance at Masonic hall, October 21, are progressing, and that it is expected that the dance will be one of the most successful yet put on. The dance will be informal and Weisgerber's orchestra has been engaged to play for the evening.

It was asked that all members attend the next meeting of the court, October 22. At this time the last reading of the by-laws will take place.

After the meeting last night an indoor picnic was enjoyed. Honored Lady Caroline Rogerson was in charge for the evening.

## INSTITUTES TO HOLD QUARTERLY COMMUNION

A joint quarterly communion will be observed by the Young Men's and Young Ladies' Institutes today at St. Paul's church in San Pablo at the 8:30 o'clock mass. Members of the Young Ladies' Institute will assemble at Tenth street and Macdonald avenue and also at Twenty-third street and Macdonald avenue and also at Twenty-third street and Macdonald where machines will take them to the church. Breakfast will be served after the ceremony by the ladies of St. Paul's church.

## Richmond Dramatic Club Plans For Program

"Isle of Long Ago" will be the theme of the entertainment to be staged tomorrow afternoon at 2 o'clock at Richmond clubhouse by the dramatic section, under the direction of Mrs. W. R. Huston. The public is invited to this entertainment and silver tea.

The program given in costume will consist of a prelude "Isle of Long Ago" by Mrs. Huston; songs by Mrs. R. M. Fahrenholtz, minister, by Miss Kathryn Fahrenholtz, accompanied by E. Esola and the sketch, with the following taking part: Hostess, Mrs. Huston; missionary agent, Mrs. Charles DeShields; Little Girl, Lois Albert, (pupil of Mrs. Huston); Ladies' Aid, Mrs. J. T. Conwell, Mrs. Cummings, Mrs. C. C. Holbrook, Mrs. E. Smith, Mrs. C. M. McCullough, Mrs. E. J. Tarr, Mrs. E. E. O'Brien, Mrs. Nellie Lambrecht, Mrs. Bell, Mrs. W. W. Chapin and Mrs. R. G. Lee.

Mrs. Florence Schramm will assist Mrs. Huston and refreshments will be served at the close of the program by Mrs. Ethel Butler, and her committee Mrs. W. J. Congdon, Miss Carrie Rogers and Mrs. E. E. O'Brien.

The executive board of Richmond club will meet Tuesday afternoon at 2 o'clock in the club house.

## Richmond Clubwomen To Attend C. C. Women's Meet

Many Richmond clubwomen will attend the meeting of the Contra Costa Federation of Women's clubs on Wednesday at the Mt. Diablo country club.

At this meeting, according to Mrs. E. C. Wiester, county president plans will be discussed for cooperating with the pre-ventorium. A. C. Elkinton, delegate to the Institute of Pacific Relations will be the principal speaker and the afternoon's program will also include solos by Mrs. William Hanlon of Martinez, and readings by Mrs. Virginia Bryant, Mrs. James Stuart, county chairman of music will lead the community singing.

Mrs. Locks, who has been in charge of transportation has made the following reservations: Mesdames S. B. Wilson, S. S. Ripley, G. E. Milnes, James Stuart, James McVittie, J. W. Bumgarner, J. A. Blair, L. C. Miller, W. Patterson, E. J. Tarr, Raymond Clarke, C. L. Gribble, Teherassy, L. W. Wuesthoff, J. Maxwell, C. M. McCullough, Jerome Locke, Mitchell Slosilo, W. R. Houston and R. G. Lee.

## PENNSYLVANIANS HOLD MONTHLY MEETING

The monthly meeting of the Pennsylvania club was held last night at the Richmond clubhouse. Mrs. Norma Goettel and Mrs. Helen Kingbury were the hostesses for the evening. Mrs. T. J. Mickey presided at the short business meeting. It was announced that Mrs. J. S. Spires would be hostess to the club at the next meeting, Saturday, November 12.

Winners at games last night included Lloyd Spires, men's prize, and Grace Thompson, women's prize. C. R. Bergstresser and Mrs. T. J. Mickey won the men's and women's booby prizes.

## DORIS PINSON BECOMES BRIDE OF WM. CARTER

Miss Doris Eveyn Pinson, daughter of Mr. and Mrs. T. U. Theodorou of this city, became the bride of William LeRoy Carter, son of Mrs. W. L. Carter at a ceremony performed by Rev. C. G. Lindemann yesterday afternoon in the parsonage of Wesley Methodist church.

The bride was attended by her sister, Mrs. Mab Alger, as matron of honor. Carrol Cartel, brother of the groom, was best-man.

Those present at the ceremony were: Mrs. T. U. Theodorou, Mr. and Mrs. W. L. Carter, Mrs. W. A. Patterson, Mr. and Mrs. V. Alger, Mr. and Mrs. F. L. Rison, Miss Elizabeth Rison, Miss Ethel Rison and Dr. Rosa C. Powell. The newly-wedded couple left on a motor honeymoon, destination unknown and will be at home to their friends upon their return at 619 Chanslor avenue.

## School of Missions Opened By First Presbyterian

The School of Missions will begin at the First Presbyterian church today to continue for six weeks. The church will be decorated in an oriental fashion and six girls in oriental costume will usher at the morning service. The classes will begin at 6:30 o'clock in the evening, and a study of the work done by the church in various lands will be pursued. The classes will be divided into four age groups. Rev. E. W. Haney will teach the adult group. The evening service will follow at 7:30 o'clock. "Jesus Loves Me" will be sung in Japanese by eight junior girls.

## Daughter of Former Richmond Minister To Wed October 29

Many people of Richmond have received invitations to attend the wedding of Miss Ruth Baker, daughter of Dr. Frank Baker, at one time pastor of the Wesley Methodist church in Richmond, to Charles Wesley Burns, Jr., at the Wesley M-E. Church in Sacramento, October 29. Dr. Baker is now superintendent of the Sacramento district.

## W. S. I. CLUB WILL MEET TOMORROW

The West Improvement club will meet tomorrow afternoon at 2 o'clock at Trinity Guild hall. The hostesses for the afternoon will be Mrs. L. Alexander and Mrs. J. Patterson.

## Musical Instructions

EFFICIENT METHODS OF MUSICAL instruction in instrumental and vocal principle, Aurora Thompson, associate Guild hall school of music London, England, Mrs. Irma Randolph, teacher of singing, Thursday, Cunningham Bldg, 996 Macdonald ave.

## JEAN JOHANSEN OBSERVES 7th BIRTHDAY

Miss Jean Johansen celebrated her seventh birthday at the home of her parents, Mr. and Mrs. John G. Johansen of 129 Eddy Street, with a party for her friends. Miss Johansen is a member of Matilda Meyer's dancing troupe. Some of the guests entertained with dancing, Elaine McConnell doing a toe dance and Betty Glasby and June Kneeland giving a song. A big birthday cake was cut when the refreshments were served.

Those present included Juanita Hansen, Jean Sonoda, La Verne Kingsley, Barbara McConnell, Elaine McConnell, Betty Williams, Thelma Rogers, Doris Hillyer, Betty Parker, Roberta Simmons, Pauline Spierich, Kathryn Johnson, Betty Glasby, June Kneeland, Fay LaRoque, Vernetta Chabotari, Clarence Thompson, Roy Hansen, George Barrett, Taylor LaRoque, Paul Chabotari, Mrs. Kneeland, Mrs. Phillips, Mr. and Mrs. Clark Cornell, Miss Jattida Meyers, Miss Emma Meyers and Mrs. J. G. Johansen.

## Iagua Girls To Take Up Crew Work Soon

Crew work on Lake Merritt will be taken up by the Iagua group of Campfire Girls according to plans made at a meeting at the city hall. Miss Maud Wood will instruct the girls in the manipulation of the oars before they leave for the lake. There will be no meeting next Friday evening on account of the outing at the lake next Saturday. Fourteen girls must be present for the practice or the project will not be carried out.

The girls have begun polychrome work for the bazaar. A Halloween party is planned. The games committee for the occasion is made up of Doris Heaster, Addie Ramey and Sue Mahnke. The refreshments will be served by Helen Scofield, Anna Shaw, and Katherine Radcliffe.

## Club Mendelssohn To Present Play, "Craig's Wife"

Club Mendelssohn will present a play "Craig's Wife" at its next meeting Thursday afternoon at 2 o'clock at the clubhouse. The cast is composed of the following: Craig's wife—Mrs. Frances Kent, Mr. Craig—Mrs. Tsar Calfee, The Housekeeper—Mrs. J. C. Eaton, Mrs. Harold, Mr. Craig's aunt—Mrs. J. H. Rumrill, Miss Ethel Landreth—Mrs. C. O. Bryant, Maizie—Mrs. H. E. Hammond, Mrs. J. H. Rumrill is chairman of the program. A. D. Jones and Mrs. John Griffin will be joint hostesses.

### NOTICE TO TAXPAYERS

Notice is hereby given that one-half of the taxes on all real property and one-half of the taxes on all personal property secured by real property will be due and payable on the third Monday in October, 1927, and will be delinquent on the first Monday in December next thereafter, at 5 o'clock P. M., and that unless paid prior to the time the first installment is due, the full amount thereof, and that if said one-half be not paid before the first Monday in April next, at 5 o'clock P. M., an additional five (5) per cent will be added thereto. That the remaining one-half of the taxes on all real property and personal property secured by real property will be payable on and after the first Monday in January next, and will be delinquent on the last Monday in April next thereafter, at 5 o'clock P. M., and that unless paid prior thereto, five (5) per cent will be added to the amount thereof.

That all taxes may be paid at the time the first installment is due, provided it is due and payable.

That all of said taxes are payable at the office of the Tax Collector of the City of Richmond at the City Hall, No. 2555 Nevada Avenue, in said City of Richmond, J. O. FORBES, Tax Collector of the City of Richmond.

Publish Daily Oct. 2 to 12, 1927.

### NOTICE OF SALE OF REAL PROPERTY AT PRIVATE SALE

In the matter of the guardianship of the person and estate of FANNIE L. LINDQUIST, an incompetent person.

NOTICE IS HEREBY GIVEN by the undersigned, Guardian of the person and estate of FANNIE L. LINDQUIST, an incompetent person, that he will sell at private sale to the highest bidder for cash in lawful money of the United States of America, subject to the confirmation by the above entitled Court, on or after the 11th day of October, 1927, all of the right, title, estate and interest of the said FANNIE L. LINDQUIST of, in and to all of those certain lots, pieces or parcels of land situated, lying and being in the City of Richmond, County of Contra Costa, State of California, and described as follows to-wit:

Lots numbered one (1), two (2), three (3), four (4) and five (5) in Block numbered three (3), as delineated upon that certain map entitled, "MAP OF CENTRAL RICHMOND TRACT NO. 2," being a portion of Lot No. 60 of the final partition of the San Pablo Ranch, County of Contra Costa, California, on the 5th day of February, 1909 in the office of the County Recorder of the County of Contra Costa, State of California.

TERMS AND CONDITIONS OF SALE: Said property will be sold as a whole, for cash, in lawful money of the United States of America, ten per cent (10 per cent) of the amount offered to be paid at the time of the sale, and the remainder upon confirmation of said sale by the Court.

Sale will be made subject to liens for the State and County and City Taxes for the fiscal year of 1927-28, and all and any improvement liens, which shall be paid by the purchaser. Conveyance at the expense of the purchaser.

## "WHITE PANTS WILLIE" COMES TO CALIFORNIA

"White Pants Willie," Johnny Hines, produced under the personal supervision of C. C. Burr, is scheduled to break all laughter records when it opens at the California Theatre today, according to reports from Hollywood where it was previewed in various theatres. The picture is crammed with hilarious moments from start to finish.

"White Pants Willie" is a screen version of Elmer Davis' humorous serial story that ran for several months in Liberty Magazine and attracted unusual attention at the time. The story abounds in good natured fun and the characterization of Willie Pascon, who succumbs to his longing to wear white pants, is declared to fit Johnny Hines like a glove.

The picture tells the story of Willie, who works in a garage and invents a magnetic bumper to save auto tires from flocks and flocks in the roadways. Willie finally rebels against the hard-boiled garage owner, dresses up in his white pants and hides himself in a cold storage, a fashionable summer resort where he knows the

## Promotion Exercise At Grace Lutheran

Promotion exercises will be held at the Grace Lutheran church tomorrow at the 11 o'clock service. The choir will sing an anthem, "He Leadeth Me." Rev. H. T. Himes will preach a sermon, "Unity in Church and Sunday School," following the exercises.

gled of his dream is stopping with her father. Upon arrival, Willie is mistaken for a crack polo player and is forced to enter a championship match. The embryonic polo player comes through with flying colors after a series of hilarious events. He wins the girl and also the sum of her father, an automobile magnate, who becomes interested in Willie's invention.

C. C. Burr has provided a splendid cast of players to surround Johnny Hines in this new offering. John Hyams, a daughter of John Hyams and Della McIntyre, of musical comedy fame, is seen in the leading role. Ruth Dyer appears prominently as does Walter Long, Henry Barrows, Marjorie Selden, George Kawa, and Baza the educated goose.

Other features include "Rare Bits," a comedy screen; "Fox News," Weigle's Californians; Larry Canada, at the organ; and five acts of West Coast Theatres vaudeville, "Metropolis," the strange drama of all time will open Cold Springs, a fashionable summer resort where he knows the

## Nat Shiek Menaces Home

### Her Fatal Step

(A story of love under tremendous obstacles, and thrilling adventure)

"Go, said Manuel Stiletto, combing the crumbs from his luxuriant moustache with one hand, with the other motioning his daughter Gigliola who was choking with satisfaction the St. Bernard who had begun to turn a butcher knife, from his Nevin avenue home. "Go," Manuel repeated. "No daughter of mine shall disgrace my domicile by wearing skirts which reach but to her ankles."

"Oh, father," Gigliola protested, "can you let me have a larger knife-the dog just coughs on this one."

Stiletto extracted a cutlass from his belt and handing it to

his daughter, went on with his tirade.

"You have been associating with a notorious natorium shiek," he said. "In fact you're both all wet, if you think I shall permit it. No daughter of mine shall wear a bathing suit."

"It is more comfortable without one," Gigliola responded giving the knife a good thrust, and viewing with satisfaction the St. Bernard who had begun to turn a butcher knife, from his Nevin avenue home.

"Is that Shiek coming here tonight," thundered Stiletto.

A knock sounded on the door. Then—

(Don't miss the next installment of this thrilling tale of undying love which runs the gamut from the depths of the city pool to the top of El Cerrito hill.)

## School Periled By Grass Fire

Several buildings including the Kensington school were threatened by a grass and brush fire in the Kensington Park district yesterday morning. Apparatus from the El Cerrito, Albany and Berkeley fire departments were sent to the fire to save the buildings from destruction.

After a fight lasting one hour, the combined apparatus succeeded in extinguishing the blaze. Considerable excitement was aroused when a first report had it that the school was ablaze but the flames were checked before they had reached any of the buildings in the vicinity.

## Building Officials To Meet Oct. 18

The annual convention of the Pacific Coast Building Officials will take place in Phoenix, Ariz., October 18-21, according to a notice received by City Building Inspector A. J. Hurley.

An action on the final draft of the Uniform Building Code of the Pacific Coast Cities will be taken at this time, the invitation carries with it an appeal for a large representation. Following the passing of the code, copies will be available to all interested in this phase of the building industry.

The Gian-nah-tah Camp Fire group enjoyed a picnic supper at Alvarado park. A feature of the evening was biscuits baked on sticks. Miss Thelma Wagener, guardian, accompanied the girls.

## Pasmore Trio To Present Concert Next Thursday

The famous "Arensky Trio" will be played by the Pasmore trio of artists at their concert in Roosevelt auditorium next Thursday night. They will be assisted by Elsa Gilreath Calfee, prominent local soprano.

Each member of the Pasmore trio, Mary, violinist, Suzanne, pianist, and Dorothy, cellist, is regarded as an eminent artist on her chosen instrument. They have played as soloists in Europe, the Hawaiian Islands and many states. In combination as a trio they have played together practically all their lives, the result being a consanguinity of thought never reached by casual gatherings of artists, no matter how great they may be as soloists. This has been remarked by Red-fern Mason and other critics and by great musicians of Europe.

In addition to the Arensky trio each member of the trio will play solos. Among the numbers a barcarolle for cello composed by H. B. Pasmore, the father of the trio, Elza Gilreath Calfee will also sing a song composed by Mr. Pasmore and accompanied by the trio.

Mrs. Vera W. Frazier will accompany Mrs. Calfee in a group of songs.

## Best Dinner Had In Artic OWL FURNISHES JUICY MORSEL

### Bird Old But Appreciated

Good eats, eh? According to A. J. Kelch, of the N. E. Davis company, realtors, not many people know what constitutes good eats. So saying he tells the following yarn:

"In the month of October, 1897, Victor Marrion, Stanley Parker, and myself were poling a shovel- nose canoe up the Yukon river. When crossing from a point opposite the Pelly river, we suddenly struck a blind snag.

Canoe and the whole works capsized. Our guns, bedding, grub and equipment went too. While swimming for shore Victor grabbed one blanket and a small bag of rice weighing about four pounds.

Shush ice was running so you can guess how the water felt. When we landed the only life saver each of us had was 10 and 12 Gauge brass shot gun shells which makes the best water-proof match box. We were able to build a fire and dry ourselves. The one blanket with spruce boughs was our bed. On retiring we slept "three in one" fashion; when one turned all turned.

## LIBRARY PUTS NEW BOOKS IN CIRCULATION

The following new books have been placed in circulation in the Richmond Public Library it was announced yesterday by Miss Nora McNeill, librarian:

ELEMENTARY AERONAUTICAL SCIENCE-HART  
Books on all phases of aeronautical science are much in demand at the library. This book takes up the elementary principles of flight and the structure of the aeroplane.

LOADING THROUGH THE PACIFIC-HUMPHREY  
"The Journey described was a complete circuiting of the Pacific from Honolulu to the South (Sea Islands, Australia, the Philippine Islands, China and Japan. Every where it is life that interests the writer more than places or things. He has caught the life in these pages."

GENGHIS KHAN-LAMB  
A most remarkable biography of Genghis Khan, a Mongolian emperor from the Gobi desert who seven hundred years ago almost conquered the earth and inspired humankind with a fear that lasted for generations. By looking at the man himself as revealed in the chronicles of his day, the author endeavors to solve the age long mystery of Genghis Khan, a nomad, a hunter and leader of beasts, who generated the power of three empires; a barbarian who had never seen a city and did not know the use of writing, yet who drew up a code of laws for fifty people.

ADVENTURES IN ARABIA-SEABROOK  
Readers of Thomas Lawrence's "Revolt in the Desert" will enjoy this more intimate picture of Arabian tribes and life as seen by the author and his wife, two Americans, who in their recent trip have unusual opportunities for seeing the home life of both the upper and lower classes.

ON BEING A GIRL-GIBSON  
Written by a high school class of girls, this book is the result of an experiment with discussion groups for younger girls in the high school. The author says that while the school atmosphere clings to it, the material is flexible enough to be used by advantage by any person or organization interested in the development of wholesome and well-balanced woman-

hood. The three divisions of the book are: The girl; her community; The girl; her family and friends; The girl; her personal problems.

TWO VAGABONDS IN ALBANY-GORDON AND GORDON.  
Another one of the inimitable travel books on Jan and Cora Gordon, the English artists, who have an unfailing sense of humor, who travel on a "show-string" and never go to the best hotels and seldom to the galleries and the museums. They have been to Spain, to Sweden and Lapland, and spent a summer in a French village, for each of which we have a first hand

THE BARKER-NICHOLSON  
A play which was produced in New York, Chicago and Los Angeles early in 1927. The characters are all members of a street carnival company and all the scenes take place on the lot of the Gaudy Big City Shows at Shelbyville, Illinois. The author

## Goofy Gwenny Says

If this column is supposed to have a "Point" I can't "Barr-ett."

Most of these big men, have "Push" and "Pull" stencilled on their doors. I notice.

"Hold that line" applies as much to a party as it does to a football game.

The radio is a wonderful thing. It's so ec-static.

I never need to bring roller skates along on a "coup" party. I can slide home on the oil some of these sheiks peddle.

MOST of these as yet un-married men who haven't a little fairy in their homes are looking for one, who'll soft soap them as far as the ring.

is said to have gathered his ma-

have a book.

## TWO LINES ONLY TO BE BUILT BY FORD

### NEW PEERLESS SHOWS WEALTH OF FINE DETAIL

Greater richness, more beauty and real luxury are outstanding features of the 1928 line of Peerless automobiles. Numerous refinements have been made in the body interiors that add to their beauty and comfort, states Harry Semar, Richmond dealer.

"A notable example of how far Peerless has gone in body beautification is seen in the new six-cylinder model," states Semar. "In this car consideration for the driver is shown by the installation of a new instrument board. This walnut panel is handsomely finished with the instruments grouped under an indirectly-lighted oval glass. They are so placed that the driver can see them without straining.

"The panel contains a speedometer, clock, ammeter, gasoline gauge, radiator and oil gauge. The dial is combination gold and silver finish. In the center of the panel is a silver eagle emblem, a replica of the tone on all Peerless radiator caps. The dash contains a combination lock and ignition switch, that unlocks with a key and locks by pushing on a plunger. The spark control is now on

### Optimism Seen For Chevrolet Car Marketing

H. J. Klingler, general sales manager of the Chevrolet Motor Company arrived in the bay district last week on a tour of the Western territory. Bringing a message of optimism from the East, Middle West and the Pacific Northwest, Klingler reports an unprecedented demand for the new Chevrolet, a demand that will necessitate a production record for the year in excess of one million cars, according to the Harry G. Golden company, local dealers.

August and September maintained their sales strides throughout the country, according to Golden, and fall buying has been remarkably strong especially on the Pacific Coast, where seasons do not play so important a part as they do in the Middle West and the East.

Chevrolet production records for 1926, which established a new high mark, were passed the middle part of August when four and one-half months remained to add to the tremendous totals which had been piled up to the extraordinary demand for the new Chevrolet.

Klingler has been associated with the dash and the light control lever replaces it on the steering wheel.

### Automobile Sales Gain In Rumania

One of the highlights of the economic situation in Rumania since the war, is the expansion of the automobile trade.

Rumanians are said to be rapidly taking to the motor car as a means of pleasure as well as for commercial purposes. They are paying a great deal of attention to the maintenance and improvement of their present roads, and are planning a considerable expenditure for new highways within the near future. During the last year, registration of motor vehicles has increased more than 5000 a notable figure in view of the generally depressed business conditions in Rumania.

A good coat of top dressing should be applied to the automobile to seal the small cracks caused by the sun.

with R. H. Grant, vice-president of the Chevrolet Motor company in charge of sales for many years. He joined the Chevrolet organization in 1924 as sales manager for the St. Louis zone. A year later he was called to Detroit as assistant sales manager and his appointment as general sales manager for Chevrolet was announced in June of this year. This is his first trip to the West in his new capacity.

Klingler, after a week's stay in the bay cities, will visit Los Angeles and Southern California returning to Detroit the latter part of October.

### Motor Magnate Will Concentrate In Low, and High Price Fields

By RAY PRIEST  
Automobile Editor Universal Service  
(Copyright 1927 By Detroit Times and Universal Service)  
DETROIT, Mich., Oct. 8.—Ending rumors about proposed new products by his company Henry Ford today says he will build only two lines of automobiles—the "Pioneer" or lowest priced car, and the very finest car.

**FOR PROSPERITY**

Mr. Ford told the Detroit Times and Universal Service that he wished all motor car manufacturers might prosper.

"Their prosperity means the prosperity of their workmen and more sales for every manufacturer of materials," said Mr. Ford.

"There is no secrecy about our plans," said Mr. Ford. "We have no intention of making more than two classes of cars—the pioneer and the finest car made, that is a Ford and the Lincoln, and both made in the same raisitive quality."

"Our market in the pioneer field is unlimited."

**PLAN DISTRIBUTION**

"With the plans finished for the new Ford car we next concentrate on getting our products to the people in the far corners of the earth in the most inexpensive manner."

"We have nearly finished expanding our manufacturing facilities in Detroit, Long Beach, Tokyo and Paris to make possible the sale of this car at a new low price. Five of our branches in the United States are being rebuilt," said a high official of the Ford Motor company, amplifying Mr. Ford's statement.

**DAILY PAYROLL \$450,000**

"Our payroll in Detroit with 59,000 men at the Fordson and Highland Park plants is \$450,000 per day. May 19, when we built the fifteen million model T car the payroll was \$552,061.

"Without any new car production

### Buick Logical Car, Affirms C. C. Kratzer

"With the large number of the 1928 Buicks already in the hands of lucky owners, it is seen how ludicrously wrong were many of the predictions of radical changes that preceded the introduction of the new line. The coming of a new Buick always results in a heavy barrage of rumors which have to do with 'what Buick is going to do.' And as is equally usual, most of the guesses are wrong," C. C. Kratzer, Buick dealer for Richmond declared yesterday.

"While it is true that there have been many changes in the new Buick, each of these has been along lines of development rather than radical changes. There are no experiments to be found in Buick. Experimenting was done months ago completely and very thoroughly at the Buick factory and the General Motors proving grounds."

"Buick engineers" do not follow whims or fads. I quote this from a national motor car publication.

"One of the principal reasons

### Argentine Buying U. S. Automobiles

Growing importance of South America as a market for United States automotive exports is shown by figures recently released from Buenos Aires. During the month of June, a total of 1583 American automobiles were imported into Argentina, as compared with 112 cars from European manufacturers. During the same month only 14 European trucks were imported as against 1926 trucks from America.

for Buick success has been that the organization has never permitted itself to be carried away by temporary enthusiasm and has never lost sight of the fact that it is engaged in the manufacture of salable merchandise. Thus the different styles offered from one year to the next are always based upon clearly indicated demand and, further, no more styles are carried than are justified by production and sales economy."

"So rather than trying to catch a fleeting fancy, the Buick engineers have built and developed along lines that are predetermined as right. This is shown in the marked model improvement in the 1928 models."

Minnesota is planning a \$20,000,000 road building program.

### GIRL REBUILDS OLD \$10 HACK

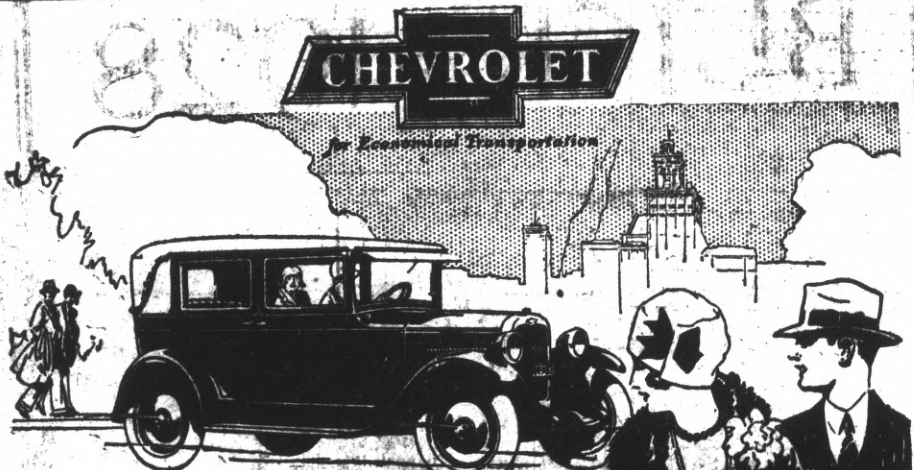

MARYSVILLE, Oct. 8.—Mrs. H. P. B. Carden, wife of a local bank cashier and member of a widely known Yuba county family, has qualified as a first class automobile mechanic—at least to her own satisfaction.

She has just completed the rebuilding, all except the painting, of a "heap" for which she paid \$10.

She took the machine apart, piece by piece, and then reassembled it, replacing worn parts with new ones, spending \$300 on them, including a modern lighting and ignition system.

### When Brakes Squeak Trouble's Ahead

When brakes begin to squeak, it is time to examine the lining for exposed rivet heads. Metal rivets coming in contact with the brake drum not only cause this annoying noise but cause the more serious trouble of scoring the brake drums.

### Everywhere—people turn to admire its beauty!

Embodying all the masterly design and craftsmanship of bodies by Fisher. —offering such marks of distinction as full-crown, one-piece fenders and bullet-type lamps— and finished in lustrous colors of genuine, lasting Duco—today's Chevrolet is everywhere acclaimed as one of the world's most beautiful automobiles... so refreshingly different, so outstandingly smart and stylish that people everywhere turn to admire it!

And this remarkable smartness is matched by a type of performance that is no less outstanding—perfect comfort at every speed, flashing acceleration, and delightful handling ease.

Come in and see today's Chevrolet. One glance at its custom-built beauty, one ride at the wheel of your favorite model—and you will know why Chevrolet is everywhere classed as the world's finest low-priced car.

### Peerless Shows Quality In Grueling African Road Test

Four-footed denizens of South African jungles received the surprise of their lives a few days ago when a Peerless car went crashing through their primeval haunts, on a record-breaking road test from Cape Town to Johannesburg. It is not hard to imagine the tree-dwelling anthropoids tightening their grasp on a swaying tree trunk in dismay at the strange spectacle they saw.

Picture the coming of the speeding car, at first a slim finger of light piercing through the hazy darkness. Hanging vines and creepers writhing in the revealing view of the oncoming headlights. Silently and slowly it draws nearer, the drone of the motor increasing in intensity then suddenly a low-hung car, jouncing over the rocky path, smashes past in a roar of dust and wind, two figures crouched in the driving seat; and then the distance. The Peerless Six-80 is setting a record! Such is the story, brought to mind by the cable results of this record run by Peerless.

The long course is 966 long miles through jungles and over rocky paths, over roads that hardly deserve to be called roads, where trees often fall and lay until moved by passing travelers.

A Peerless Six-80 with fenders and windshield removed, traveled over this course at the highest rate of speed ever attained by any American or European car in Africa. The total elapsed time was 25 hours and 25 minutes.

This would be creditable time for a thousand mile run over good roads. Automobile authorities declare that it is little of this run, records made on paved roadways seem but tame, proving little except speed.

One of the Dark Continent's fastest trains take 4 hours and 35 minutes longer to make the same distance on steel rails giving a basis of comparison that is absorbing interest to motor car authorities in this country.

## BUICK for 1928

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

### You see all the road when you drive a Buick

The dreaded "blind spot" is gone forever! In Buick for 1928 closed car front posts are narrowed so that all the road, ahead of you and at the side, is clear.

What a factor this is for safety! What extra pleasure it gives to driving! How it relieves city traffic problems—the sudden rush of a child... the unexpected appearance of a car at a corner... the negotiating of turns in crowded places!

And, thanks to the efficiency of Fisher craftsmanship, these slim corner posts have even greater strength than the type formerly used.

See a Buick for 1928 at the nearest showroom. Get behind the wheel and prove for yourself how clearly you can see all the road from the driver's seat.

BUICK MOTOR COMPANY, FLINT, MICH., Division of General Motors Corporation

Sedans \$1405 to \$2275 Coupes \$1405 to \$2120  
Sport Models \$1405 to \$1775

All prices delivered at Richmond. The G. M. A. C. financing plan, the most desirable, is available. The model illustrated above is the Five-Passenger Sedan, Series 120, \$1755.

## OAKLAND SIX GETS 5 AWARDS IN PARIS SHOW

The beauty and easy handling qualities of the Oakland Six were officially recognized when the car won five awards in recent competitions at Paris against a formidable field of contestants from all parts of the world, according to George Olson, local Oakland-Pontiac dealer.

The Oakland scored first in two different classes at the Concours d'Elegance, or "automobile beauty show," conducted under the auspices of the newspaper "L'Auto."

An Oakland Six coupe with snake-skin upholstered body designed by Hugrack & de Costier was awarded the blue ribbon in the two-seated class. The car was driven by Mlle. Blanche Montel, prominent French actress of the Theatre de l'Avenue. In the inside drive three-seated class an Oakland coupe driven by Mrs. Barclay, wife of Major Barclay of the American Embassy, took another first prize.

A few days later, the Automobile Championship was held at the Parc des Princes. The rules required each of the fair contestants to drive her car over a straight course, around a sharp turn and to stop in front of two barriers. She then had to alight, remove the barriers, drive through them and replace the barriers and finish the run.

Oakland cars, with their steering wheels and controls designed for ease of handling, particularly by women drivers, swept the boards in this contest, taking first, second and third prizes. Mlle. Montel, driving the same car which had won the beauty contest a few days before, also took first in this event. Mlle. Diana of the Theatre Marigny was second and Mlle. Huguette Jay of the Theatre des Capucines was third, both driving their own Oakland Sixes.

Be careful not to get excess gasoline into the cylinders of your car when priming the engine. The excess gasoline will leak past the piston rings and thin the oil in the crankcase, causing it to deteriorate.

## New Mexican Revolution Reported

THAT ANOTHER Mexican revolution is impending and the crisis of the situation is at hand is indicated in reports from Mexico City stating that several thousand troops are in a state of mutiny with the Calles administration in danger from the insurgents. Photo shows Federal troops entering Mexico City during the last revolution.

## Motor Vehicle Chief Tells Of Rules Governing Lights

The California State Automobile Ass'n. announced yesterday the receipt of notification from Frank G. Snook, chief of the Division of Motor Vehicles, that, in cooperation with the California Public Safety Conference, he will conduct a vigorous drive against illegal motor vehicle lights beginning immediately.

In order that motorists may understand their duty, Geo. E. Sanford, general attorney of the California State Automobile Association calls attention to the provisions of the headlight law.

When Lights Are Required Every automobile and motor truck, when operated upon the public highway, must have two headlights during the period from a half hour after sunset to a half hour before sunrise. These lights must also be lighted at any other time, such as during a heavy fog, or passing through thick smoke. If there is not sufficient light ahead of the motor vehicle to render clearly discernible a person, vehicle or other substantial object upon the highway two hundred feet ahead.

Types Of Lights Six types of lights are defined in the law—headlights, sidelights, spotlights, tail lights, auxiliary lights and clearance lights. Courtesy lights are widely used, but are not specifically mentioned.

Position And Number of Lights The headlights must be on the front of and on opposite sides of the vehicle and not more than fifty-four inches above the level ground surface upon which the vehicle stands.

If sidelights are desired, two must be used in any sidelight. Not more than two spotlights may be used and they may not be used in substitution of headlights. The centers of spotlights shall not be less than thirty inches above the level surface upon which the vehicle stands. They must be so arranged or adjusted that when measured one hundred feet or more ahead, the main parallel beam of light shall not rise more than thirty inches above the level surface of the ground upon which the vehicle stands.

Spotlights must be so set that the main parallel beam of light cannot be raised above the lawful limit of anyone occupying the front seat of the vehicle. Not more than a thirty-two standard candle power bulb may be used in a spotlight. No restriction is placed on the number of taillights, but at least one must be used and it must be strong enough to exhibit a red light, plainly visible under normal atmospheric conditions at a distance of not less than fifty feet back.

As many as two auxiliary lights may be used in conjunction with the use of approval headlamps. They must be mounted below the level of the center of the headlamps and between or attached to the spring horns.

Fundamental Rule The primary rule governing lights is that no device shall project a glaring or dazzling light to persons in front of the vehicle.

LAKE COUNTY ROUTES IN GOOD CONDITION Lake County motor routes are in good condition for this season of the year. The Middletown-to-Lakeport road is considered good. Summer traffic has slightly roughened the Middletown-to-Kelseyville route and it is a little dusty. From Kelseyville to Lakeport and Upper Lake, the road is good. Crossing from Upper Lake to Ukiah, or from Lakeport to Hopland, the motorist encounters good dirt and gravel roads.

KEEP OIL LEVEL FLOAT IN WORKING ORDER ON YOUR CAR

When tightening bearings or inserting piston rings, you should be sure that the oil level float, or cork, is firmly attached to the indicator shaft or wire before replacing the crankcase or pan.

SCAVENGERS RICHMOND SCAVENGER CO.—All sorts of refuse removed on short notice. Call up phone 965 any time in afternoon.

## HEAT-RESISTING STEEL USED IN BUICK VALVES

What is said in automotive circles as one of the greatest problems in increasing the life of internal combustion motors was the search for valves that would withstand a constant "cherry-red" heat over long periods of time. The long sustained heat of the valves such as brought fame to Colonel Lindbergh and other trans oceanic conquerors have been made possible through the discovery of Silchrome steel for these most important units.

These heat resisting valves, known as "s" metal valves, attracted the attention of not only aircraft builders but motor car engineers as well in a long series of tests conducted by the United States Bureau of Aeronautics at Anacostia, Md. One of the first automobiles to adopt the new valves for its valve-in-head engine was Buick, according to C. C. Kratzer, Buick dealer for Richmond.

Hundreds of explosions occur in each cylinder every minute and the heat generated is only partly suggested by the sizzling temperature of the exhaust manifold. This does not even approximate the temperature within the cylinder itself, Kratzer explains.

"The exhaust valves are under an almost constant blast of fire for the operation of the camshaft is exceedingly fast. And again there is not that slight cooling that the intake valves have when the fresh mixture is being drawn," Kratzer said.

"The average motor car owner, of course, never sees the valves, but if he could watch them in motion he would see the exhaust valves running 'cherry-red,' much of the time.

"Before the 's' type was discovered in one of the most metallurgical advances in recent years, exhaust valves had the 'life' burned out of them in the first few thousand miles, thereby causing loss of power and much trouble.

"In reports of the federal bureau tests in Maryland it was found 'destruction' runs in aircraft engines which completely ruined ordinary valves that the 's' type was unharmed. Their stems had taken on a glossy, mirror-like finish which resisted wear. The faces showed a tendency to conform to the slightest variances in the block seat, thereby making a tight seal. They also were lighter than the previous valves and consequently operated more quietly and freer."

Exhaustive subsequent tests conducted by Buick engineers showed the valves of the new metal would run six times longer than the previous types without requiring regrounding.

## Fundamentals In Rules For Headlights On Auto Reviewed

In connection with a drive launched this week by the State Motor Vehicle Division against illegal headlights on motor vehicles, George E. Sanford, general attorney for the California State Automobile Ass'n., today reviewed the provisions of the law for the benefit of motorists. The campaign is being conducted by Frank G. Snook, chief of the Division of Motor Vehicles, in cooperation with the California Public Safety Conference, Sanford's summary follows:

"The fundamental lighting rule is that no device should project headlights are presumed to comply with this requirement, if they are equipped with lenses, reflectors or control devices which have been tested and approved by the Division of Motor Vehicles."

"Auxiliary lights must also be submitted by the manufacturer or sales agent for test by and approval of the Division of Motor Vehicles."

"There are other special provisions for lights upon loads which extend more than four feet beyond the bed or body of the vehicle carrying them and also for vehicles having a body or load in excess of eighty inches in width, with which truck drivers and owners should become familiar. These lights are known as clearance or load lights and it is extremely important, as a protection to other users of the highway, that such clearance or load lights be displayed."

"Every motor vehicle must have two lighted headlights from half an hour before sunset to half an hour after sunrise on the public highway or during heavy fog or thick smoke so that objects 200 feet ahead may be clearly discernible. The law defines six types of lights—headlights, sidelights, tail lights, spot lights, auxiliary lights and clearance lights. Headlights must be not more than 54 inches above the ground and two sidelights must be not more than four candle-power globes. Spotlights are limited to two in number, the centers not less than 30 nor more than 72 inches above the level surface on which the vehicle stands. They must be so adjusted that when measured 100 feet ahead the main parallel beam shall not rise more than 30 inches above the ground. Thirty-two standard candle-power bulbs may be used."

"Tail lights must show red and be plainly visible at least 500 feet to the rear of the vehicle and illuminate the number plate to be visible under normal conditions not less than 50 feet back."

RAGS WANTED—RECORD-HERALD

## Bargain! Chevrolet Coupe

Brand new latest model fully equipped; driven less than fifty miles. Purchased new last week; owner compelled to sacrifice on account of business change. An opportunity to purchase a practically new car at a used car price. Substantial discount and easy terms to responsible party. Ask for Mr. Shumate.

**\$1895** SIX-90 SEDAN  
**Value!**

That's the first thing that strikes you about this remarkable **PEERLESS**

It didn't take the public long to spot genuine value in the Six-90. Almost immediately a tremendous wave of public approval was evidenced.

And it's easy to understand why—once you have driven the car—once you have contrasted it with others that sell under \$2000.

Here in this moderate priced Peerless car you'll find many unusual qualities.

Performance for instance—the exhilarating flow of smooth, even power that carries you up to 70 miles without a hint of vibration.

Deep cushioned comfort that makes riding in the Six-90 tranquil—restful.

Ease of steering and driving that lets you guide it over rut-scarred roads with only a finger's weight on the wheel.

Elegance in its rich, lacquer finish. Its aristocratic lines. Its very completeness, and in addition a score of unseen improvements that make for safety and service and distinction.

All are attributes heretofore known only in cars much higher in price. All part of this car's great value.

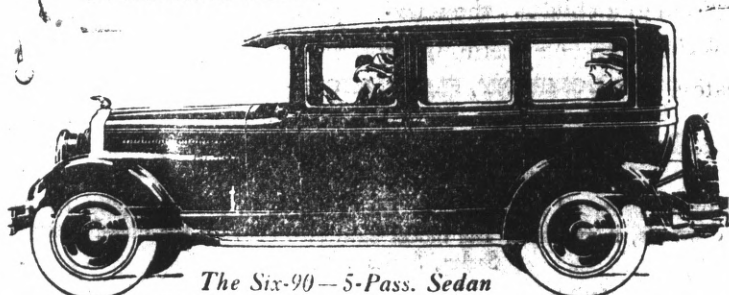

Try this new Peerless. Know what there is about the Six-90 that wins such unstinting praise from men and women who love fine cars.

PEERLESS MOTOR CAR CORPORATION, Cleveland, Ohio  
Manufacturers also of the 1924 type Eight-49, the powerful Six-72 and the remarkable Six-30

## Modern Road Across Once Feared Sand

Between the Imperial Valley of California and Arizona State line, lies an ever shifting stretch of sand dunes, six miles in width and about thirty miles in length, which for many years was a nightmare to the many motorists using the Southern Route.

In 1916 the first successful road across this sandy waste was built of planks. It was eight feet wide and built in sections so that it could be moved with the ever changing dunes. However, it was sometimes buried under the shifting sand. As the road was narrow and one-way in type, and turnouts located only at intervals, machines frequently left the planks and ploughed into the deep sand holes, derailing the highway. They were pulled back on the planks only with great difficulty and with outside assistance.

Increasing traffic demanded a better route over the section and in 1925 a contract was awarded

for the paving of the road. The work was carried on by the contractor under many difficulties and much discomfort from the heat of the desert. August 11th, 1926 marked the completion of this spectacular paving project which removed the only weak link in the western section of U. S. Highway No. 80, leading from El Paso west to the Pacific Coast. After a season of rain, this ordinarily bleak waste, presents a gorgeous spectacle, for the desert blooms along the hills with a dazzling carpet of red.

Many movie companies have been attracted to these sands because of their great likeness to the vast sand stretches in Africa and the region has provided settings for many motion pictures.

The pavement is twenty feet wide, which affords ample passing room, and the road is in every sense a boulevard. Only the mute testimony of abandoned machines and discarded planking, half buried at the side of the highway, bear testimony of the first vain efforts of man to conquer that desert region.

STILL A YEAR AHEAD

# The Trend for 1928 Is Forecast in the Perfected Whippet

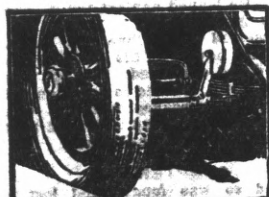

THE sensational success of the Whippet rests on its superior performance, economy, safety, comfort and beauty—qualities which are the goal of all light car manufacturers.

No other car at anything like the Whippet's price offers you the modern advantages of the Whippet—utmost gasoline economy, the safety of BIG 4-wheel brakes, low center of gravity, more leg room, full vision bodies, force-feed lubrication and many more.

Expert engineering and the friendly suggestions of more than 125,000 loyal owners have developed the finer Whippet of today. Come in and see the car which sets the pace for 1928.

BIG 4-wheel brakes make Whippet the safest light car.

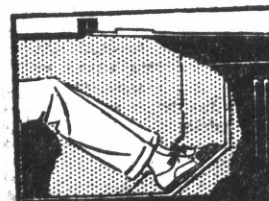

Over-size balloon tires and genuine Gabriel Snubbers insure smoother riding.

Narrow front body post eliminates the "blind spot" hazard and permits clearer vision.

The most economical light car. Whippet holds the A. A. C. Coast-to-Coast economy record.

Whippet affords appreciably greater leg room than any other light car.

## CROSS COUNTRY RECORD SET BY WHIPPET CAR

Automobile trips across the continent from the Pacific to the Atlantic, or in the reverse direction are no longer considered extraordinary, although such an accomplishment 20 years ago, or even less, was an outstanding one. Then such a trip was a matter of weeks of hard driving and real hardships. Today the trip may be made quite comfortably in 10 days.

However, a trip of this kind in anything less than that time is considered noteworthy, the record for a light car until quite recently being in the neighborhood of seven days.

A new mark for a light car, driven by its owner, has just been made by C. Killmeyer, automobile salesman of Sacramento, who left his home city at 2:08 a. m. on Friday, Sept. 2, and arrived in New York at 8:55 a. m. Sept. 7, just five days, three hours and 47 minutes elapsed time and without relief at the wheel. The car was a Whippet roadster.

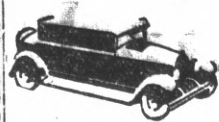

Killmeyer therefore arranged to check out from the Western Union office in Sacramento, and in at the end of the trip in New York, also checking in at all Western Union offices along the way to provide an official record of his elapsed time. The mileage for the trip, as recorded was 3205 miles, according to Hourtane and McQuone, local Whippet, Willys-Knight dealers here, who received the information.

According to J. W. Hawk, vice-president and manager of the Willys-Overland Pacific company, Killmeyer had but an hour's sleep previous to starting out for his long trip, yet he arrived in Salt Lake City at midnight of the same day, having covered a distance of 701 miles over the Sierras and across the Nevada desert.

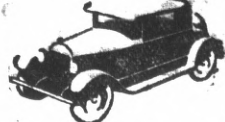

He declared the Whippet performed perfectly throughout the run and was ready for the return trip after a complete oiling and greasing.

That old saying, "he swore like a trooper" has been changed in these chorus girl times to "he painted the skies like a trouper."

### NEW COLORS IN HUP SEDAN

The W. J. LaFranz motor company now has on display the six cylinder Hupmobile sedan finished in black and red. There are red trimmings around the windows, and the wheels are of red. The car comes equipped with four wheel brakes. Inside, the car is roomy, further convenience being added by the placing of the emergency brake handle on the left side of the car instead of next to the gear shift lever.

### WHIPPET CONVERTS DIABLO

A Whippet four driven by a representative of the Willys-Knight Overland factory in Oakland, recently beat previous records for the climbing of Mt. Diablo, according to a report received by the Hourtane-McQuone motor company, local dealers of the Whippet. The record stands for cars in the Whippet class.

C. T. Westwood of 1945 Grant avenue took delivery on a Willys-Knight 70 sedan from the company last week.

### NEW LINES NEXT WEEK

Next Saturday J. P. Strom will announce two new lines of cars in Richmond according to A. F. Anderson, sales manager of the company, which is now located at Thirteenth street and Macdonald avenue. Anderson says that one line will be of medium price cars ranging from \$900 to \$1200 in price, and is one of the most popular in the market. Another

line of cars in the \$2500 class will also be introduced by Strom. The company is now having a used car sale to clear the sales rooms for the arrival of the new models next Saturday.

### GOLDEN LOSES ON PIRATES

C. K. Schumate of the Harry Golden company, local Chevrolet agency, is the possessor of a new hat. Golden himself was the donor of the hat, having bet on the Pirates in the late World Series.

The company delivered one landau, three coaches, and one coupe last week. The landau, which appears in a new color combination of yellow and green, has been well accepted by the public, according to reports from the salesrooms.

### DOUGLAS RECEIVES SHIPMENT

Two carloads of cars have been recently received by Ernie Douglas, local Hudson-Essex dealer. The company is ready to make immediate delivery on all Hudson models, Ernie announced.

Five cars were delivered last week: an Hudson sedan to H. W. Livingston of 2929 Nevin avenue; Essex coach to E. G. Dauphine of 313 Twelfth street; Hudson sedan to Dan Healy of the Standard Oil Company; Essex sedan to W. J. Prather of 235 Twelfth street; Essex coach to Ethel B. Bernier of 183 Twelfth street.

## Children Given Instruction In Crossing Street Safely

Instruction to children in how to cross street safely constitutes the fourth lesson in the safety series for schools being distributed for October by the California State Automobile Association under the system of visual education in traffic hazards arranged by the Association with school authorities. The lesson consists of a striking poster, prepared by the Association Public Safety department, which is placed on the classroom wall and remains there throughout the month as a constant reminder to the pupils until the next of the series is received.

Accompanying each poster is material for the use of teachers in explaining the poster lesson to pupils. The suggested talk by teachers, prepared by the Association for October, follows:

It is seldom either a child or adult person is ever injured who crosses the street safely and correctly.

The Safety Poster that goes with this lesson shows the mother telling her little girl to "LOOK BOTH WAYS BEFORE CROSSING THE STREET."

Faithful observance of this simple precaution will save many a child from being hurt.

As you cross the street, "LOOK BOTH WAYS"—first, look to the left—then look to the right—that's all.

Now, there's a proper and safe place to cross the street. Each child should remember to cross the street "AT THE CORNER" or intersection.

If there are "STOP AND GO LIGHTS" at the crossing STAND at the curb while the light is red—and walk across quickly when the green is on.

MORE MEN, WOMEN AND CHILDREN ARE KILLED IN THE MIDDLE OF THE BLOCK THAN ANYWHERE ELSE ON THE STREET.

Therefore, all children must be warned each day to AVOID CROSSING STREETS IN MIDDLE OF BLOCKS.

It is DANGEROUS, likewise, to RUN ACROSS THE STREET. Use your eyes—look both ways—then walk across at the intersection.

Each boy and girl must be asked to make a promise to obey these easily remembered safety rules—and do it "FOR MOTHER'S SAKE."

This system of traffic safety education, with a message a month to boys and girls on how to avoid the common dangers of streets and highways, is being given in approximately 10,000 classrooms in nearly 800 cities, towns and school districts in Northern and Central California.

Both the Auburn-Corfax and the Placerville routes to Lake Tahoe and Nevada points are still in good shape, reports the California State Automobile Association, despite the lateness of the season and a summer of heavy travel over these routes.

## USE GOOD OIL CHANGE IT OFTEN

Perhaps you'll think "that's good business for you." But, nevertheless the best garage customer is the one who neglects his oil. If you would be safe and really economical, change your oil every thousand miles, if you are using eastern oil, and every five or six hundred miles if you use western oil. In the winter you should change oftener. For frequent use of the choke and a richer mixture dilutes and robs the oil of its lubricating qualities much sooner than in summer. If you will let us we will arrange a schedule so that you cannot go wrong. If you have an oil rectifier on your car, you can use the oil four or five times longer than you otherwise should. Most assuredly, we sell and install oil rectifiers, too.

## FALCON-KNIGHT CARS UNDERGO GRUELING TEST

To prove the endurance, stamina and longer life of a car powered by the Knight sleeve-valve engine, eight Falcon-Knight sixes are nearing the quarter million mile mark in a grueling road test, according to the Harry Semar Company, local dealers.

For more than six months these eight Falcon-Knight cars have been pounding over the roads, mountains and level, in all sections of the country, each one having covered to date 30,000 miles. Only minor adjustments have been necessary in this severe test which will not be completed until the cars reach 75,000 miles each. At that time the engines will be brought to the Falcon Motors plant, dis-assembled and inspected by Knight engine experts to attempt to determine what, if any, wear is noticeable in the internals of the engine.

Up to this point, the eight test cars have shown remarkable qualities, not only for endurance and stamina, but for power, speed, fuel and oil economy and freedom from mechanical troubles. When the dis-assembling of the test engines takes place after the completion of the 75,000 mile grind, Falcon officials frankly assert that they expect to find no traces of appreciable wear on any part of the engines.

"It has been the aim of our company to produce a car with a motor that will set a new standard of motor performance," declared Semar, in commenting on the severe road test being undergone by the eight cars. "The usual troubles found in poppet-valve sleeves rather than poppet valves, carbon formation, the common evil of all other types of engines, is unheard of in a Knight sleeve-valve engine."

"More than ever before the mo-

## QUIETNESS

..... AND SMOOTH RUNNING

"The quietest balloon I ever used." So one car owner told us about the NEW Goodyear All-Weather Balloon. And this tire IS quiet—quiet and smooth running. It rides on its sturdy shoulder ribs with no objectionable rumble, vibration, or loss of power.

Eighty treads were actually made up and tested in road service before this tread was adopted because it was quiet, yet had traction, safety and long wear.

Whether you need tires now or not—see Goodyear's NEW balloon tire. Let us explain why it is the World's Greatest Tire.

### THE "MAKINGS" OF FAME

A state executive died Sunday in Tennessee. He was Austin Peay and he has been governor since 1923. He was a democrat and a popular man. That is about all that can be said of Governor Peay in this amount of type, as to himself and his position.

But he had a call to fame. It was his signature that made the Tennessee anti-evolution bill a law and led directly to the Scopes trial, wherein the state of Tennessee showed that it was able under its law to limit the teachings in the public schools to biological subjects not in the opinion of a judge and an ignorant jury conflicting with the Book of Genesis.

All sorts of acts and conditions may be converted into the substance of notoriety in this weird life of ours, and so the late Tennessee governor earned a small place on the roster of the noted with a law. It was not intrinsic in Governor Peay to make the world stand still and watch his state, for we believe that any man who has the wit to become a governor, is widely enough informed to believe in evolution of some sort. He may still sign an anti-evolution law and not be inconsistent, however.

Public service takes several forms. Among the finest is that kind given without pay by men who take their high talents to private enterprise, but find time to sit in with officials of the government and help solve great industrial and economic and financial problems.

Leon Trotsky told an American newspaper man that there is no democracy in the United States. We are him to say that to Pat Harrison.

It is said that the cost of living declined very readily during the first half of 1927. And of course the most important decline was in the price of gasoline.

There has been but one divorce in Prince Edward Island in fifty years, evidence that there are no film colonies there. —Pittsburgh Gazette-Times

The filling station has taken the place of the livery stable but unfortunately the livery stable jokes seem to go on forever.

The principal thing we blame the flapper for is setting such an example in dress and make-up for mother and grandma.

It still has to be proven that knee dresses are any bigger handicap than hoop skirts for the proper rearing of babies.

A lot of people continually complain of the weather, but very few of them are able to do anything about it.

### IN OUR OFFICE

## Daddy Dusk

"We had a great time in Fairyland the other night," said Daddy Dusk, one afternoon, when he was seated on his front porch. "I took Benjamin Finkel of Topping avenue with me and the Queen was so delighted to see him that she put him on her throne and all the fairies danced about singing: 'She's a jolly fellow; she's a jolly fellow.'"

"Where do you get 'she'?" asked Doodle.

"That's the point," replied Daddy Dusk. "They were trying to see if they couldn't get Benjamin's goat."

"Did you have a goat with you?"

"No, koose—you see, in Fairyland no one should ever get mad, for if you do, they throw you out."

"I get you."

"Well, Benjamin just sat there and grinned until finally the Queen was so delighted to see him that she put him on her throne and all the fairies danced about singing: 'She's a jolly fellow; she's a jolly fellow.'"

"You mean object, don't you?"

"That's not the right word, either. 'Devoted slave, how's that?'"

"Well, Benjamin was so delighted with his crown that he insisted on wearing it home, and on the way, it fell off. Mercy me! That boy was almost heartbroken, but when I got to his home, I stumbled over something, in the dark and it was his crown, so he was very happy. I think he has it yet."

## Vigorous Health

By PAUL J. VEATCH, D. P. S. T.

Is meat necessary for a person who eats few vegetables? Is chocolate healthy?

Meat is not necessary for anybody. A few cases seem to get along better when they take a little meat, but the majority of people would be much better off without it. If the person does not eat many vegetables, why not? They are worth while eating.

Strictly speaking chocolate cannot be said to be healthy. It contains the same drug as tea and coffee and besides much refined sugar. However, a healthy person can usually eat a little occasionally without trouble.

## Do You Know, That—

By MRS. HALL-DEANE

A sleeveless pajama of nile green crepe de chine has a short ecru lace coat trimmed with bands of crepe de chine to match the pajamas.

Here's another hat—the "half-and-half"—a smart little affair half feutre angora and the other half of smooth French felt. Of course, it comes from Paris—but exact copies are being shown in the fashionable shops.

The velvet suit is a prime favorite among junior fashions. Tan Jersey and brown velvet are smartly combined in a suit designed for Miss Twelve-to-Fourteen. The blouse is of jersey trimmed with velvet. The flare skirt and un-belted jacket are of velvet.

## What Your FACE TELLS

©c. 1927- by Betty Morrison, PsyD.

NAUGHTY FOLK DON'T HAVE CONCAVE MOUTHS

What secrets mouths do tell on themselves. Here is the opposite to the convex mouth, already illustrated. This mouth curves inward whereas the convex mouth has an outward curve, or protruding appearance.

The type represented in this illustration is mild, thoughtful, quiet, slow in action, submissive in disposition.

Very seldom do unkind words or sarcastic speeches come from such a mouth. This person loves harmony and will do more than his share to effect and preserve it.

There is a natural sweetness of expression in this mouth which is almost unerring in its indication of character. It is easy for this kind of person to be good. Fine qualities in manners and speech are innate.

Excellent Talker This individual has a practical mind and an excellent choice of words. The concave mouth and brunet complexion frequently go together. In such an individual the characteristics already referred to are more pronounced.

This person makes a good silent partner in business because he generally thinks all around a subject before he expresses his opinion. An individual with this concave mouth is endowed with kindness and patience. It takes an unusual amount of nagging and quarrelling to make him assume the defensive. To this man silence

is golden. This person is very sensitive to criticism, but will listen in good spirit to logical argument.

Warm Family Ties Family ties mean much to men and women of this nature. Their tastes are domestic, their dispositions are affectionate. They take great delight in being kind to and entertaining their friends. They are seekers of congenial companionship. To deal successfully with this individual, talk in a soft modulated tone. It is essential also to refrain from speaking too rapidly. This type person makes many close friends. If mated to the same type, the couple will be very happy. These people make excellent parents, because of their patience and their great affection for their offspring. In spite of their quiet, peaceful dispositions, they are leaders by nature.

## "A Woman Looks As Young As She Feels" Lady Grey

By LADY BEATRICE GREY

Every one admires the girl who has beautiful hands. A woman's beauty is at her fingertips. She may not have a beautiful face, but the expressiveness of her hands and their beautiful grooming can very often attract such admiration that the features will sink into the background and remain unnoticed.

Ask admirers of the immortal Duse what was the most beautiful thing about her. Long after her face and faded from memory there will remain the vision of her beautiful fluttering hands, slender white and alive. It has been said that she could speak an international language without words through the use of her hands. It was not in the gesture but in their evasive fluttering and repose which expressed a mood or a passion or a feeling more easily than words could hope to do.

Beautiful Your Hands Every girl can have beautiful hands. Some, by their shape and size, are more attractive naturally but any hand, no matter its size or shape, is beautiful.

A manicure can make or mar a beautiful hand. It should always be conservative. The garish overpainted nails, the shining flamboyant claws are only reminiscent of a barbaric trait when native women stained their nails with vermilion dye and allowed them to grow to enormous lengths.

Civilization does not call such hands beautiful. The truly beautiful hand should express the personality of the owner.

In manicuring the shape and size of the hand should always be considered and the nail shaped to correspond.

A Good Rule The slender hand with perfect ovals for nails, is the easiest

hand to keep beautiful. In such cases there is very little in keeping the hands beautiful. Regular manicures are all that is needed. But it is the tiny short, plump hand—the large hand that calls for a No. 7 or 8 glove that causes the real problem.

A general rule which is always good to follow is this: File the nails, following the shape of the finger tips. Don't let them remain too long—then you will always have the problem of ugly, broken nails.

This is especially vital, if you are doing any typewriting or active work with your hands. Nails should be manicured at least once or twice a week, and careful attention paid to them every day.

building through physical culture will receive the personal attention of Lady Grey, beauty culturist, and should be signed by the writer's full name and address, which will not be used without permission. Address her, care of this newspaper.

G. When an engagement is broken, what becomes of the wedding presents?

A. Wedding presents of permanent value are returned to the givers with a formal note stating only the fact that the engagement has been broken.

Q. Should children be corrected in the presence of guests?

A. No. It only makes the child miserable and the guests uncomfortable.

Q. Are tuxedos correct for afternoon weddings?

A. No.

READ IT FIRST IN THE RECORD-HERALD.

## What the Good Book SAYS

Rev. R. W. Keeler, D.D.

Q. What drunken king committed sacrilege?—G. F. Elmhurst, L. I.

A. "Belshazzar, whilst he tasted the wine, commanded to bring the golden and silver vessels which his father Nebuchadnezzar had taken out of the temple which was in Jerusalem; that the king and his princes, his wives, and his concubines, might drink therein."—Daniel V:2.

Q. Where are the words: "It shall be a law that ye eat no fat?"—K. C. B. Jamestown, N. Y.

A. Misquoted. "It shall be a perpetual statute for your generations throughout all your dwellings, that ye eat neither fat nor blood."—Leviticus III:17.

Q. Does the Bible tell of the sun standing still?—M. G. B., Port Washington, L. I.

A. "And the sun stood still, and the moon stayed, until the people had avenged themselves upon their enemies."—Joshua X:13.

Q. Was wire made out of gold in ancient times?—R. L. E., Tenafly, N. J.

A. "And they did beat the gold into thin plates, and cut it into wires, to work it in the blue, and in the purple, and in the scarlet, and in the fine linen, with cunning work."—Exodus XXXIX:3.

Q. How did Ezekiel raise the dead?—O. J. H., New York City.

A. "Then said He unto me, prophesy unto the wind, prophesy, son of man, and say to the wind, thus saith the Lord God; come from the four winds, O breath, and breathe upon these slain, that they may live. So I prophesied as He commanded me, and the breath came into them, and they lived."—Ezekiel XXXVII:9, 10.

Q. What good advice did Paul give Timothy?—J. J. R., Troy, N. Y.

A. "O Timothy, keep that which is committed to thy trust, avoiding profane and vain babblings, and oppositions of science falsely so called. Which some professing have erred concerning the faith. Grace be with thee."—I. Timothy IV:20, 21.

## What Do You Know?

1. Who was John Singer Sargent?

2. Who is Mrs. Harry Payne Whitney? In which art is she widely known?

3. What is the independent name of Mrs. Heywood Brown?

4. Who is Herbert Bayard Swope and what is his connection with a great New York daily newspaper?

5. What were the two most notable literary researches of Ida M. Tarbell?

6. What is an acre? And a wise-acre?

7. Is a seal a fish or a mammal?

8. Where is Hampton Court?

OBeyed SUMMONS

One of the witnesses in a county court case was a diminutive boy of 13, who was to give important evidence in his father's behalf.

When he stepped into the witness box he looked the part of a freak in a circus. His hat came down over his eyes, the tails of the coat he wore touched the floor, and his trousers were so long that the knees were at the ankles. Even the judge could not contain his mirth.

"Why do you come here dressed like that?" he inquired.

The youngster felt in his pocket, produced a summons, and with dignity pointed out the words: "To appear in his father's suit."

ALICE JORDAN.

## THE FIRST AUTO

Copyright 1927 Warner Bros. Pictures Inc.

THE FIRST AUTO, with Barney Oldfield and Patric Ruth Miller in a Warner Bros. picturization of this novel.

SYNOPSIS

In 1896 Bob Armstrong is secretly inventing gasoline engines and openly courting Rose Robbins. Hank, racing automobiles, horse-whips his son and Bob leaves home with Rose's promise to marry him. Steve Bentley proposes to Rose but is refused. In revenge he suggests to Hank that sulphur is a gas tank will cause an explosion. Hank, not knowing that the "Red Demon," who has come to town to race autos, is his son, follows Steve's suggestion. He leaves the track and with Rose races his mare to the track in the hope of saving Bob. Before they can reach the scene the automobile explodes.

CHAPTER XXIII—Continued

"Stop!" she cried, grabbing Hank's arm and pointing towards the fleeing car.

With a jerk Hank brought Bright Eyes to her haunches. The carriage pitched stiffly to a stop. Hank sat staring in horror. Too late! He could think of nothing else. Fascinated, as a bird is fascinated by some loathsome reptile, the two sat motionless. They could neither speak nor act. All they could see was the toy-like automobile running round and round, the flames increasing and gathering volume. As they watched, the car crashed into the fence, and rolled over. They could hear the vibrations of the smash, see the flying pieces. And then the flames enveloped the upturned car.

It was the sound of the crash that had brought the people in the grandstand to such sudden halt. As they realized what had happened, they turned to look at the wreckage of the automobile. Once such a sight would have filled him with joy, but now he could not even bear to look upon the mass of charred iron and tin. He shuddered and returned to the carriage beside him. His eyes fell upon Bright Eyes, her sides lathered with sweat, her nostrils quivering, her chest heaving. The strain was telling on the foreman, and his bewildered mind could no longer sustain the weight of his conscience.

As he looked at the mare he suddenly began to believe that it was her fault that he had not reached the track in time. He became furious, his old temper returning. He clenched the whip and raised it, glaring at the poor, dumb animal. "You!" he yelled, turning on Bright Eyes with fury and scorn. "You failed me!"

As he stood trembling, with arm upraised, ready to bring down the lash, the little mare turned her head and gazed reproachfully at her master. And at that moment, his eyes he realized that after all, she had put up as good a race against time as she was able. It wasn't her fault if she couldn't make it. She had done everything possible. And if it was her fault, his and no other's—that he hadn't been able to beat down the barriers of seconds. His hand dropped. He leaned against the side of the buggy.

Deserted and alone, he stood, his head bowed on his breast. The crowd had dispersed. The sun was going down, sinking in a golden red glow that presaged rain. It was all over now. Dead was that turns to ashes in the mouth.

CHAPTER XXIV

And so was fought and lost a hopeless battle against the hosts of progress. And to the loser it meant—the end. The bitter end. Despair and ruin facing him on all sides. His son died by his own hand. All the ideals that he had stood for broken, shattered and scattered to the four winds of heaven. A long struggle and nothing but defeat for his gains.

Inside his stable that evening Hank sat, pondering. He reviewed the course of his life—events that he had gone over so many times before. But never before had he had to add to them the bitter consciousness of that afternoon. Now, as he saw it, he had nothing more to live for. He gazed about him at the empty stable and thought of their bright days when they were filled with neighing, whinnying horses. Now they were but rain stains and reminders of the ideas that he had so long and so stubbornly tried to uphold. They might as well go, too.

(To be continued)

Bob! Speak to me! It's Rose!"

opened, en masse they hurried out to see the burning car. They swarmed like flies over the fields and the course. They began to form a circle about the wrecked machine. Densely they packed themselves in. And they shut out the light from Rose and Hank.

"Go on! Go on!" Rose was shrieking, shaking her stunned companion. "He may need us."

The sound of the crash had brought Rose out of her coma of terror, and now she was shouting. Her violence had the desired effect on Hank, and he picked up the whip and cut the horse a resounding crack. The mare jumped forward and started down the hill at a swift pace. The smoke was rising from the center of the crowd, but any view of either Bob or his mechanician was hidden by the spectators.

By this time Rose and her companion had reached the gates. Hank pulled Bright Eyes to a stop and jumped to the ground. He turned to help Rose, but she was already out and running towards the scene of the accident. She pushed people right and left in her frenzy to break through. She elbowed her way with a strength that she scarcely knew she possessed.

At last she reached the center of the crowd. She stopped, placed her hand over her mouth to keep from screaming. There lay Bob, burned, his clothes torn, his face scarcely recognizable, beneath the dirt and smoke. She ran towards the figure.

"Bob!" she called, terrified. "Bob! Speak to me! It's Rose!"

Bob! Speak to me! It's Rose!"

Bob! Speak to me! It's Rose!"

Bob! Speak to me! It's Rose!"

Bob! Speak to me! It's Rose!"

Bob! Speak to me! It's Rose!"

Bob! Speak to me! It's Rose!"

Bob! Speak to me! It's Rose!"
